

Turn expo conversations into revenue

The exhibition lead-management workspace built for exhibitors, sourcing teams and international trade professionals — capture every connection, track every follow-up, close more after the show.

14-day free trial

No credit card required

Built for trade shows

WHAT IS EXPOLEAD OS

Your exhibition pipeline, organised

A purpose-built workspace that captures every connection, buyer signal and follow-up from your trade shows — so nothing falls through the cracks when the exhibition ends. Not a generic CRM: built for three days on a show floor, on your feet, meeting fifty people.

Capture connections instantly

Log booth visits, company details, classification and follow-up priority in seconds during the show.

Manage every exhibition

A dedicated workspace per show with booth lists, visit tracking and a ready-made prep checklist.

Opportunity pipeline

Track deals by stage — Qualified, Pricing, Evaluation, Negotiating, Won or Lost — with live volume and win rate.

Follow-up reminders

Get alerts when actions are due or overdue. Never miss a follow-up in the crucial days after a show.

Reports & insights

See what each show was worth — pipeline by stage, connections by exhibition, conversion performance.

Your data, always yours

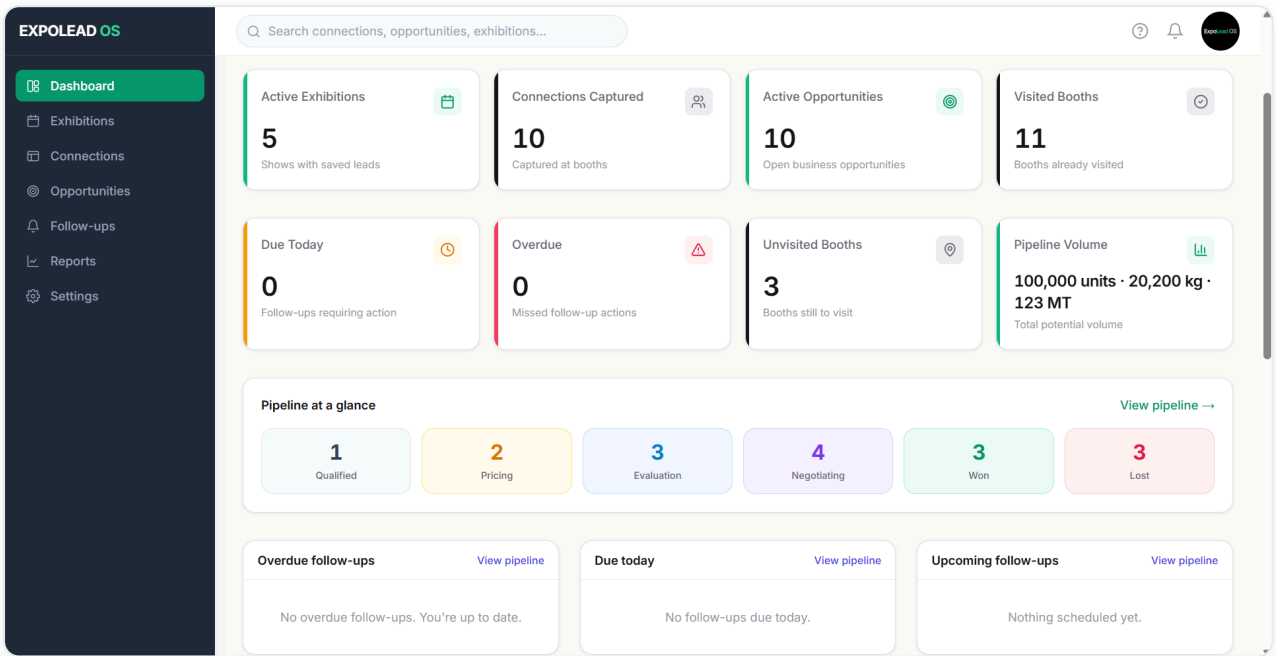

Export connections and opportunities to CSV anytime. No lock-in, ever.

14-day free trial · No credit card required · Sample data included

01 · DASHBOARD

Your pipeline at a glance

The dashboard is your command center — every number that matters from your shows, in one view.

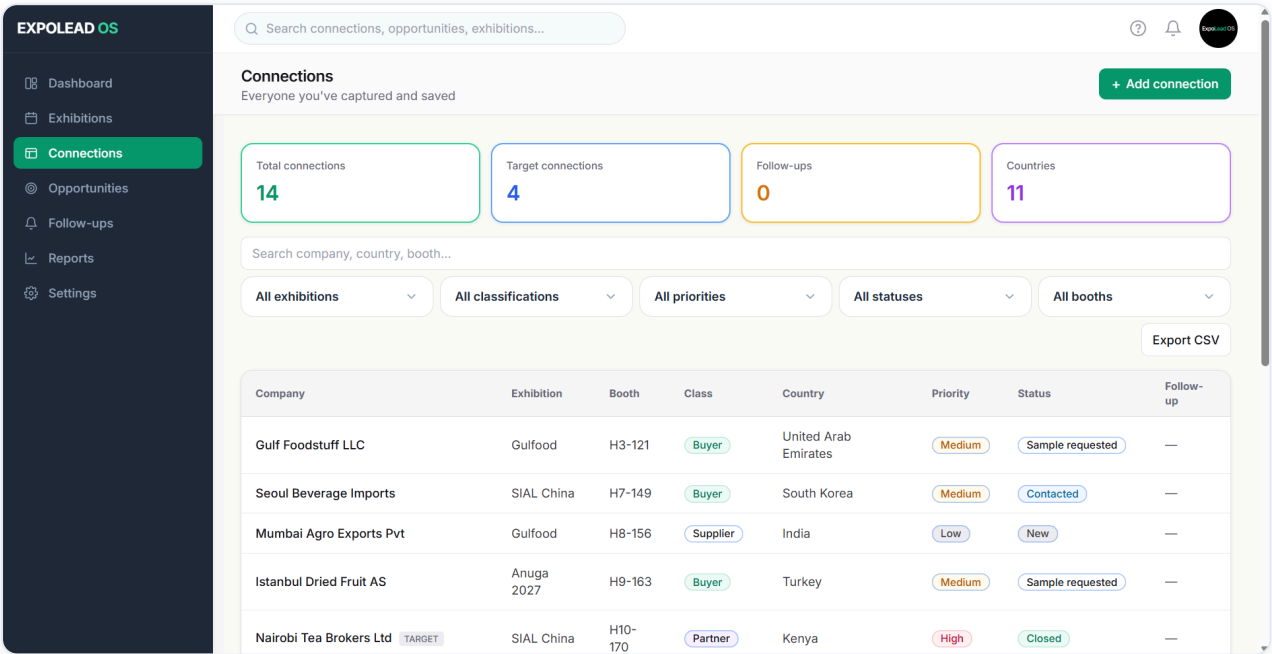

Dashboard — exhibition pipeline and follow-up command center

- **Live pipeline metrics** — active opportunities, total pipeline volume and win rate, updated automatically.
- **Follow-ups front and center** — see what's due today and what's overdue before it slips.
- **Show activity** — connections captured, booths visited and remaining, across every exhibition.

02 · CONNECTIONS

Every booth contact, captured

The people and companies you meet at the show — organised, searchable and never forgotten.

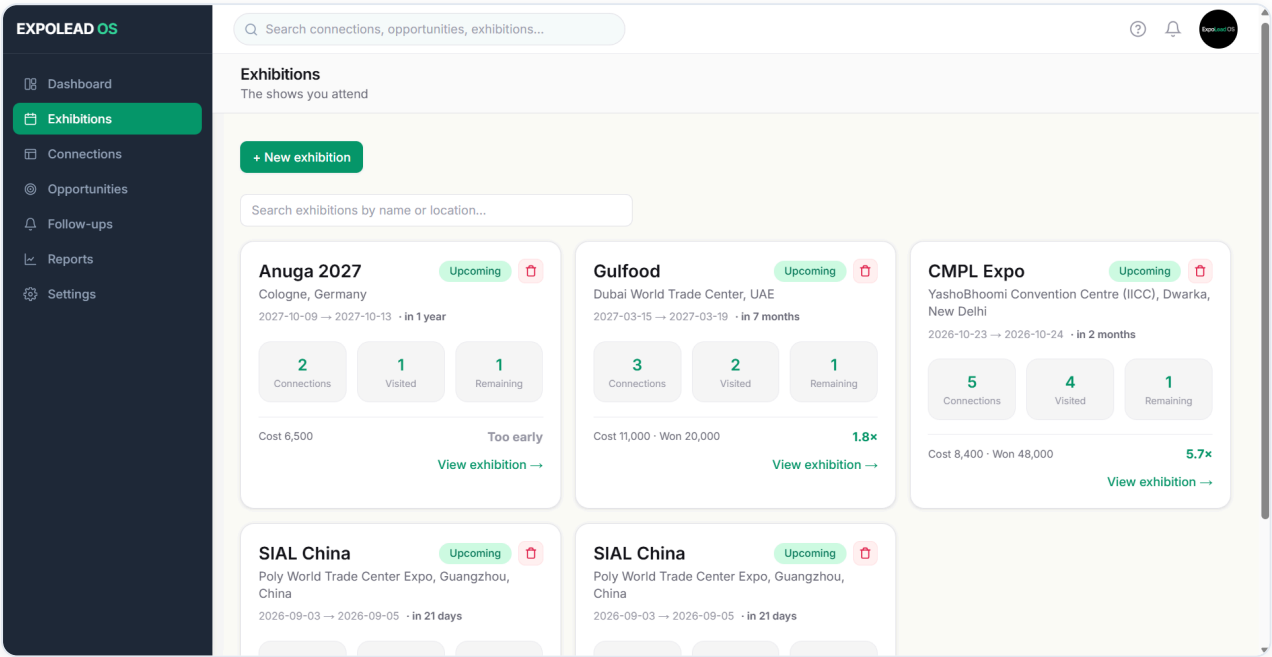

Connections — full list with filters, search and CSV export

- **Rich records** — company, country, classification, booth & hall, priority and follow-up status.
- **Where you met matters** — flag whether they came to your stand or you visited their booth.
- **Capture the conversation** — notes and voice capture, so the detail is there when you follow up.

03 · EXHIBITIONS

Manage every show you attend

Each exhibition gets its own workspace — add as many shows as you attend and switch between them instantly.

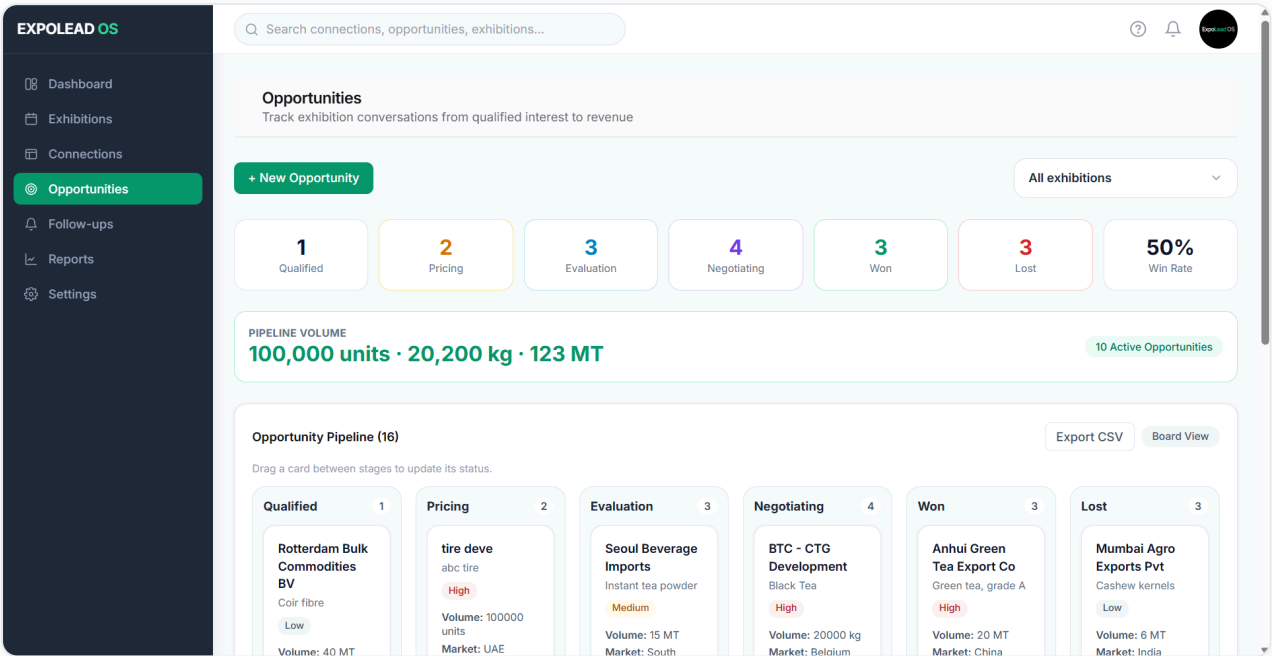

Exhibitions — per-show pipeline, booths and prep

- **Exhibiting or visiting** — set your posture and your own stand details for each show.
- **Show-ready checklist** — a ready-made prep list gets you organised before you travel.
- **At-a-glance status** — connections, booths visited, remaining visits and show dates.

04 · OPPORTUNITIES

From conversation to revenue

Track every serious lead through your sales pipeline, from first interest to closed deal.

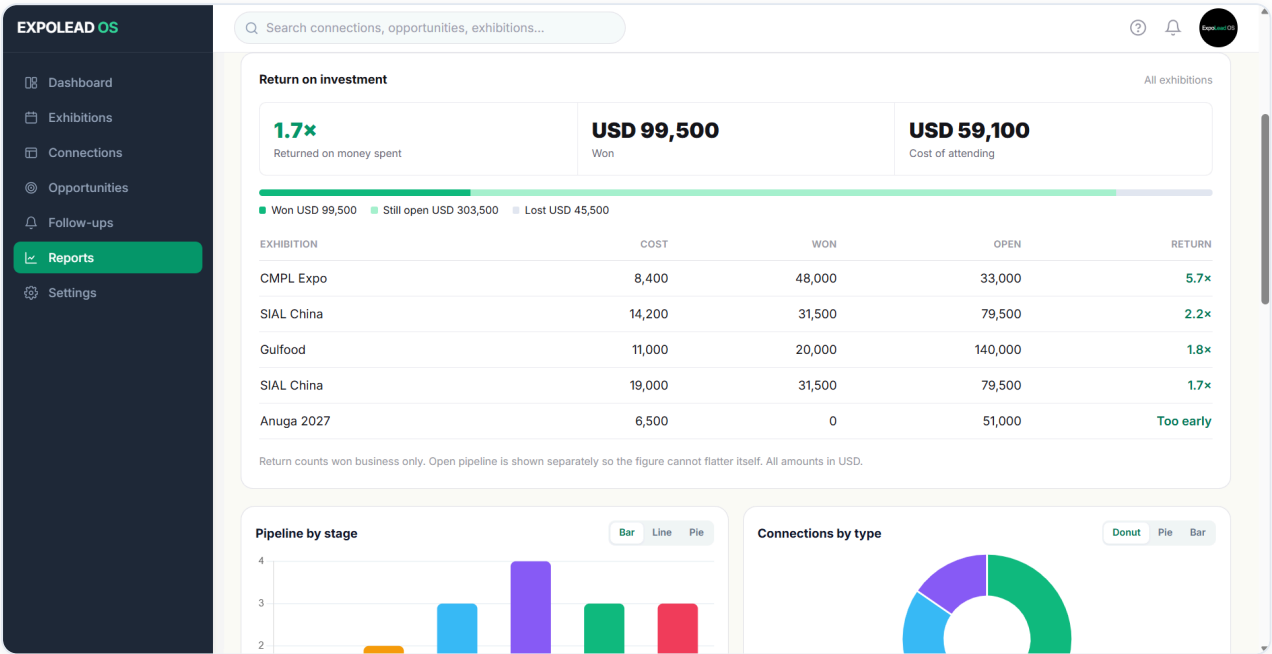

Opportunities — stage tracking, pipeline volume and win rate

- **Clear stages** — Qualified → Pricing → Evaluation → Negotiating → Won or Lost.
- **Deal detail** — value, quantity, destination market and the next follow-up, all in one place.
- **Automatic totals** — pipeline volume and win rate recalculate as deals move.

05 · REPORTS

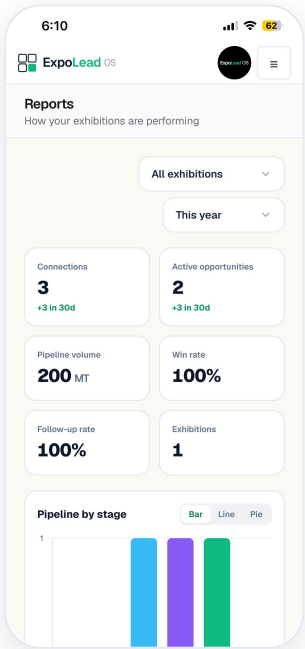

See what the show was worth

Turn a busy three days on the floor into numbers you can act on — and share with your team.

Reports — pipeline, connections and conversion at a glance

- Pipeline by stage and connections by exhibition.
- Conversion & follow-up performance across your shows.
- On the go — check your numbers from your phone between meetings.

SIMPLE, HONEST PRICING

Start free. Upgrade when it pays for itself.

One recovered exhibition lead pays for ExpoLead OS for years. No contracts, no sales calls. Switch between monthly and annual anytime.

Trial
